cutting bed they will give ample and diversified blooms  
for the home over a long period each spring. Each year  
we discard around 100 varieties to make room for new-  
comers. These discards are added to this NOVELTY MIX-  
TURE which is in a class by itself for those not interested  
in named varieties, and yet who desire fine and unusual  
flowers over an extended period each spring.

## AMERICAN DAFFODIL SOCIETY

The vast majority of our customers, we know, are already members of this splendid organization and have benefitted by its well-planned efforts to further the knowledge of and interest in this wonderful subject. It may be of interest to the members of the Middle Atlantic Division to know that an interesting meeting is being planned nearby at the Hotel Chamberlin, Old Point Comfort, Va. on October 8. Any further details may be had by writing Mrs. Chandler Bates, Gloucester, Va., who is Chairman. Those interested in joining the ADS may do so by sending the small sum of \$3.00 to Mrs. William A. Bridges, 10 Othoridge Road, Lutherville, Md. Also the R H S Classified List, as well as Daffodil and Tulip Year Book, may be obtained from Mrs. Bridges by ADS members.

## LABELS FOR DAFFODIL PLANTINGS

We have what we consider the IDEAL label. The 3½ by 1 inch zinc name plate has four holes through which the two 12 inch aluminum legs are inserted. The name plate can never come loose and if names are written on with weather-proof pencil they will remain legible for at least two years. Price per dozen, postpaid \$1.50; per 100, \$8.00.

### BOOKS

Daffodils-Outdoors and In - by Judge Carey E. Quinn - First President of the American Daffodil Society - hardly needs, but justly deserves, a word from us. It covers the field completely and charmingly. Delivered, \$4.50

The Romance of Daffodils - by William Brumbach - is a fascinatingly-written little book by a student and lover of the old and new varieties. Delivered, \$2.25

Daffodils for Amateurs, - by Jefferson Brown and published in England is a fine little handbook on the subject.

Delivered, \$1.50

### FERTILIZER

Last year we made an experiment which we know will be more than beneficial to other gardeners. We tried Vigoro Bulb fertilizer for the first time and were not only astounded, but overjoyed at the results and can heartily recommend it. Of course we had a cool, rather damp, growing season, but that alone could not account for the unusually fine, healthy, large clean bulbs we harvested this year. TRY VIGORO BULB FERTILIZER, which may be obtained in a small box at a reasonable price. As our old customers are well aware, we dig half our stocks each year and in the spring publish our Blue List of those dug for the current year, then come mid-summer, after digging we print this little list which chiefly contains suggestions for a few varieties we especially want to emphasize. Please write us for descriptions of any in which you may be interested and we will gladly supply.
